

# A guide to **our pricing**

Effective from the 5th July 2021

# UK and international pricing

This guide contains all of the pricing information you need to plan your deliveries.

We divide the world into 12 Zones for pricing purposes. To find a price, simply check which Zone you're sending to and choose the delivery service you require. Maximum weights and sizes vary by destination so be sure to check our worldwide directory at [parcelforce.com/countries](https://www.parcelforce.com/countries)

## How to calculate your UK delivery price

The UK is divided into three Zones.

**Zone 1:** England, Wales and parts of Scotland, excl. Highlands & Islands

**Zone 2:** Highlands & Islands of Scotland

**Zone 3:** Northern Ireland, Isle of Man & Isles of Scilly

Surcharges apply to deliveries to Zones 2 and 3 (see page 4). There are also a small number of postcodes where extended delivery times exist or a service is not available. See [parcelforce.com/countries](https://www.parcelforce.com/countries)

## How to calculate your international delivery price

Our international services are priced on the weight of the parcel, or its volumetric weight (i.e. the space it occupies), whichever is the greater. See page 3.

The prices in this guide are our tariff rates, and you should apply any % discount, as per your contract with us.

### VAT

All prices quoted in the price guide (including surcharges and additional services on pages 8 and 9) exclude VAT which is calculated at 20% for UK domestic destinations and at 0% for all international destinations.

# Volumetric charging for international deliveries

Our international services are priced on the weight of the parcel, or its volumetric weight (i.e. the space it occupies), whichever is the greater.

To calculate the volumetric weight, multiply the length x height x width in centimetres and divide the answer by 5,000. The result is the volumetric weight. The answer should be compared with the actual weight in kg. Whichever is the greater figure should be used to look up the price for the service you require in this Price Guide.

All packages will be volumetrically scanned before leaving the country. If there is any difference between the declared weight and the volumetric weight, you will be charged the higher amount.

Visit [parcelforce.com](https://www.parcelforce.com) for more information and type 'Volumetric Charging' in the search bar.
