Deer stalking

Six species of wild deer live in the UK

There are up to

2 Million

wild deer in the UK – the highest number for 1,000 years

The annual deer cull of

350,000

reduces the impact that deer can have on native flora and fauna

Deer management provides

2,500 JOBS

in Scotland alone

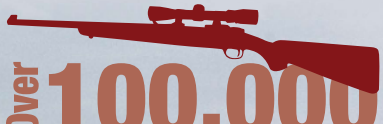

LOW FAT

Venison is worth

£170 million

to the UK economy

A **100g / 3oz** serving of roast venison contains **140 calories** and **1 gramme** of fat

Over **100,000**

people go deer stalking each year

Each year deer management helps to reduce the

74,000

deer-vehicle collisions
